Leadership And Interest

I have a passion for film making. I had my own production company and worked on a TV show full-time. Here you can watch one of my video reel: [Vimeo](#). As the captain of my high school soccer team, at age 14, I was able to lead my teammates into the semifinals of a local tournament where all high schools from the city were present. I also did a TV commercial for the World Cup: [YouTube](#)
